**MAXIMIZE ECONOMIC
DEVELOPMENT**

**ENHANCE
SAFETY**

Welcome

U.S. Hwy 169 Corridor Coalition Membership Meeting

February 26, 2026

About Us

A nonpartisan public/private joint powers organization made up of County, City, Township, non-profit and business leaders along U.S. 169 from Mankato to the Twin Cities.

Our Mission: Working together to enhance safety, reduce congestion and maximize economic development along the U.S. Highway 169 interregional corridor.

Adoption of the Agenda

1. **Welcome – Jim DuLaney, Coalition Chair, Shakopee City Council**
2. **Coalition Dissolution Update**
3. **Hwy 169 Corridor Coalition Remarks**
 1. **Senator Eric Pratt**
 2. **Mayor James Hovland**
 3. **Lisa Freese, Former Scott County Transportation Services Director**
7. **Updates from Coalition Membership**
8. **Other items**
9. **Adjournment**

Financial Review

Financial Report

Current Fund Balance (February 2026): \$28,280

2025 Coalition Voting and Affiliate Membership:

- Belle Plaine
- Edina
- Jordan
- City of LeSuer
- Mankato
- North Mankato
- Saint Peter
- Savage
- Shakopee
- Blue Earth County
- LeSueur County
- Nicollet County
- Scott County
- Louisville Township
- Sand Creek Township
- Spring Lake Township
- Shakopee Mdewakanton Sioux Community (affiliate)

Hwy 169 Corridor Coalition 2025 Dues	
Cities	2025 Coalition Dues
Belle Plaine	\$500
Edina	\$1,500
Jordan	\$500
Le Sueur	\$500
Mankato	\$1,500
North Mankato	\$500
Savage	\$1,500
Shakopee	\$1,500
St Peter	\$500
Counties	Amount
Blue Earth	\$2,500
Le Sueur	\$500
Nicollet	\$500
Scott	\$2,500
Townships	Amount
Louisville Township	\$125
Spring Lake Township	\$125
Sand Creek Township	\$125

Shakopee Mdewakanton Sioux Community	\$500

Dissolution Joint Powers Agreement

ARTICLEX. TERMINATION

- When 2/3 of the Voting Members agree, by written agreement, to dissolve the U.S. Highway 169 Corridor Coalition and all obligations of the Board shall have been paid or otherwise discharged in full.

Upon termination or dissolution, all property of the U.S. Highway 169 Corridor Coalition shall be sold and the proceeds, together with monies on hand, shall be distributed to the Voting Members and Affiliate Members in proportion to their annual dues required and paid by the last annual budget or as agreed to by the Board to further the purposes of this Agreement. The Board shall approve a final report of its activities and affairs on the expiration of thirty (30) days and there from, shall cease to exist.

THANK YOU

Hwy 169 Corridor Coalition Remarks

Senator Eric Pratt (54)

About Us

A nonpartisan public/private joint powers organization made up of County, City, Township, non-profit and business leaders along U.S. 169 from Mankato to the Twin Cities.

Our Mission: Working together to enhance safety, reduce congestion and maximize economic development along the U.S. Highway 169 interregional corridor.

Hwy 169 Corridor Coalition Remarks

**Mayor of Edina
James Hovland**

About Us

A nonpartisan public/private joint powers organization made up of County, City, Township, non-profit and business leaders along U.S. 169 from Mankato to the Twin Cities.

Our Mission: Working together to enhance safety, reduce congestion and maximize economic development along the U.S. Highway 169 interregional corridor.

SCALE

Scott County Association
for Leadership & Efficiency

U.S. Highway 169 Construction Projects in Scott County

FEBRUARY 26, 2026

U.S. 169 Corridor Projects

Three Coalition Priority Projects currently under construction in Scott County

Strategic investment of Local, State, and Federal dollars including Scott County Transportation Sales Tax

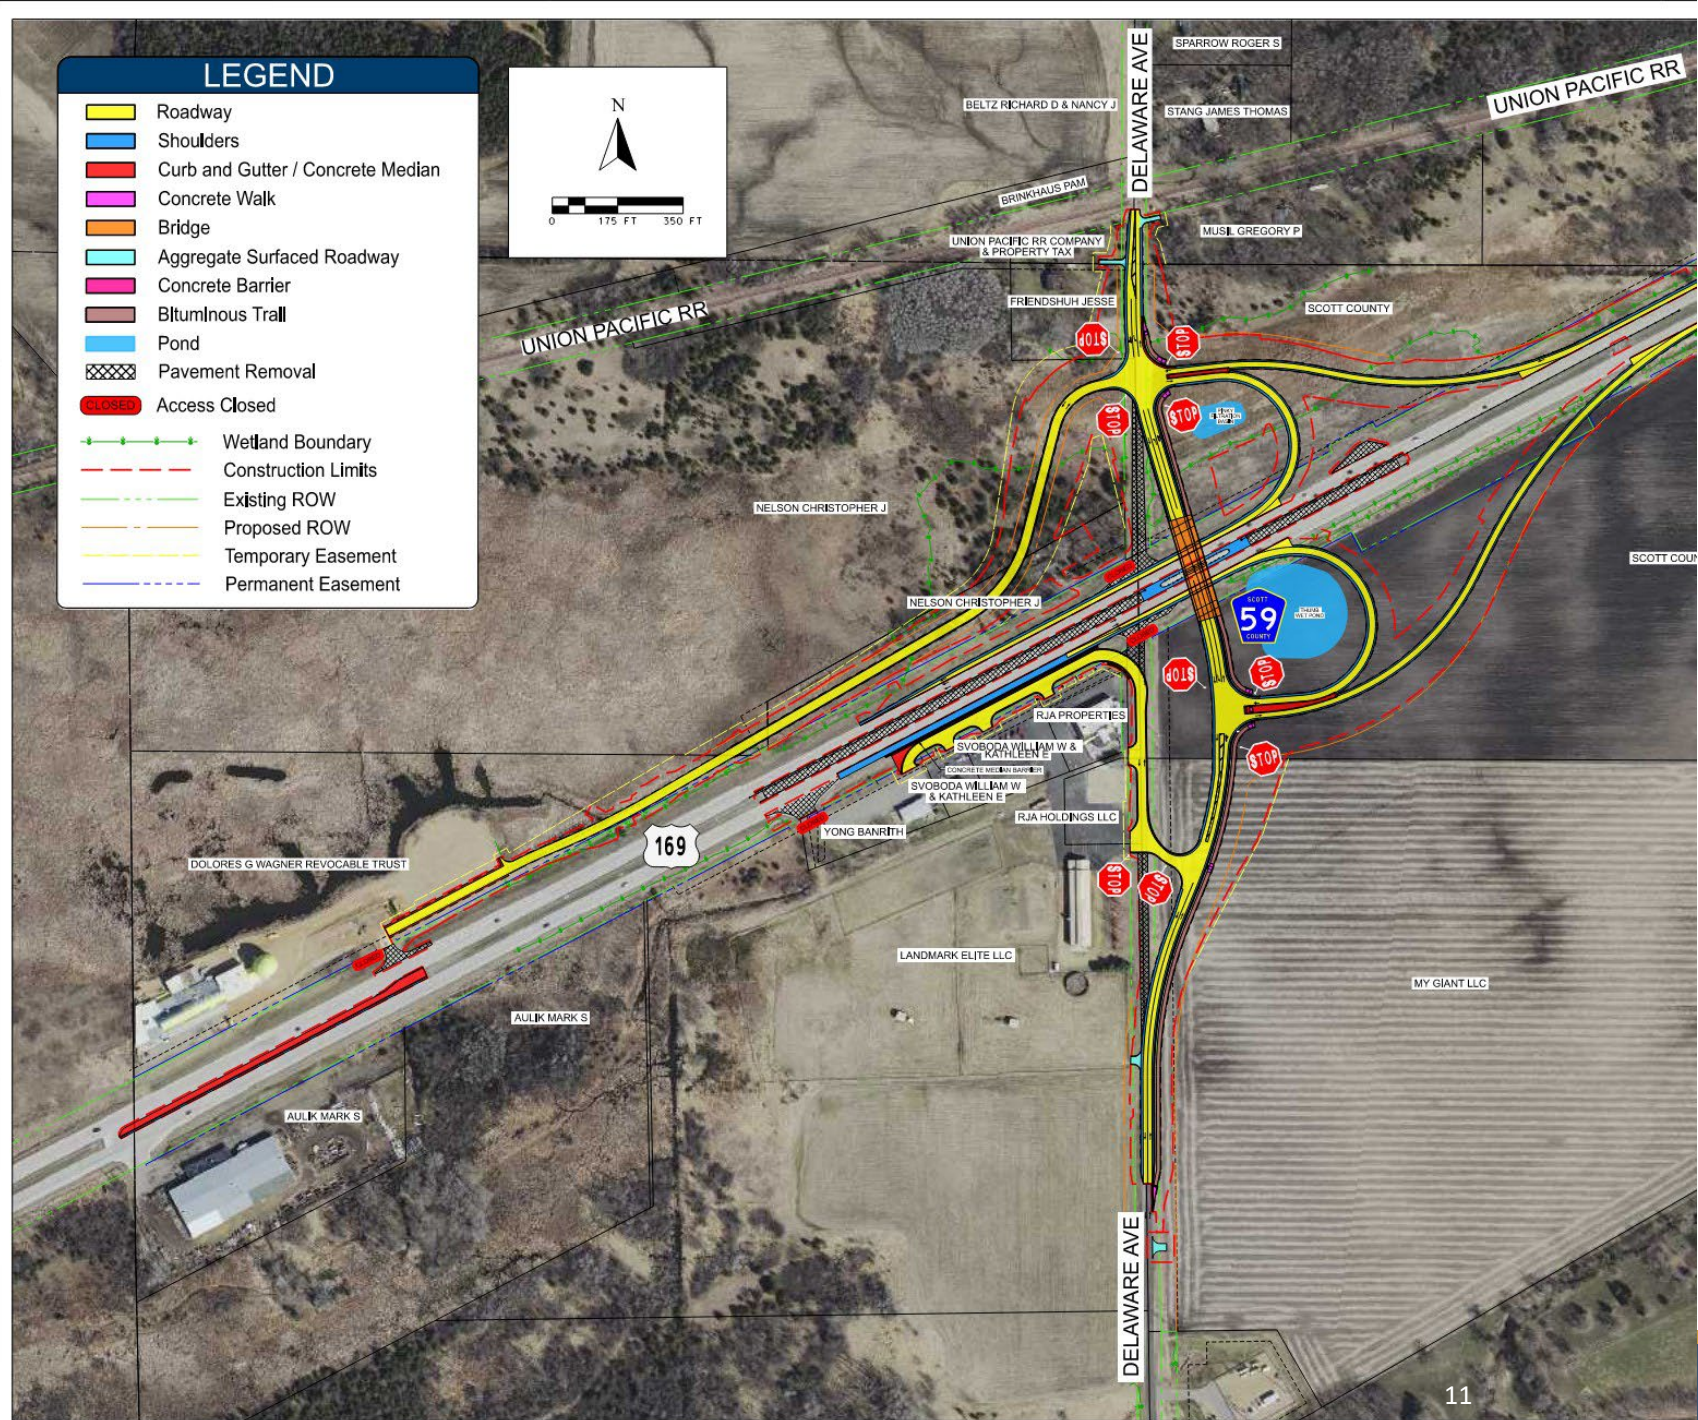

Partnerships with MnDOT, Sand Creek Township, St. Lawrence Township, City of Jordan, and local businesses and residents

U.S. 169 PROJECT SNAPSHOT

US 169 & CH 59 Interchange

- Existing R-CUT intersection converted to a grade separated folded diamond interchange
- Access management and business coordination
- Agricultural connection across US 169
- Funded with Scott County Transportation Sales Tax
- Construction started in May 2024 and is expected to be open to traffic ahead of the Scott County Fair at the end of July

US 169 & CH 59 Interchange

Recently Completed Work

- Bridge beams were set in December 2024
- Bridge deck was poured in April 2025
- Approach panels were constructed in May 2025

Upcoming Work

- Frontage road to Candy Store to be paved
- Frontage road to businesses in SW corner of interchange to be constructed
- Completion of bridge superstructure
- Removal of turn lanes and driveways on TH 169 in Fall 2025

Traffic Impact

- Intermittent lane closures on TH 169 through July
- CH 59 closed south of business access until new frontage road and interchange are open to traffic
- Interchange is expected to be open ahead of the Scott County Fair in late July

US 169 Bluff Drive / Jordan Ave Overpass

- Overpass of US 169 between 173rd Street and Bluff Drive addressing safety, access management, mobility, connectivity, and environmental considerations
- Construction of Jordan Ave Extension completing a continuous 4.3-mile local road connection from the Bluff Drive industrial area into the City of Jordan.
- Funded with Sand Creek Township, State, and Scott County Transportation Sales Tax funds.
- Construction started in Fall 2024 and is expected to be complete by Fall 2025.

US 169 Bluff Drive / Jordan Ave Overpass

Recently Completed Work

- ❑ Bridge Abutments and Pier construction completed February and March 2025
- ❑ Bridge Beams were set in April 2025
- ❑ 166th Street drainage and grading completed in May 2025

Upcoming Work

- ❑ Southbound 169 to westbound 166th Street turn lane construction
- ❑ Bridge deck pour is scheduled for early June
- ❑ West Bluff Drive and other frontage road drainage and grading work

Traffic Impact

- ❑ An overnight road closure is planned during the bridge deck pour
- ❑ Southbound 169 will continue to be reduced to one lane for most of Summer 2025
- ❑ Access to Jordan Avenue will continue to alternate between 166th St. and Bluff Drive

US 169/TH 282/CH 9 Interchange

- Existing signalized intersection converted to grade separated interchange
- Last remaining signal on TH 169 from St. Peter to Champlin
- Sand Creek and Railroad overpasses
- Pedestrian Tunnel under US 169
- Funded with RAISE grant, Trunk Highway Bonds, General Obligation Bonds, Congressionally Directed Spending, State funds, City of Jordan funds, and Scott County Transportation Sales Tax Funds
- Construction started in April 2025 and is expected to be complete in 2027.

US 169/TH 282/CH 9 Interchange

Recently Completed Work

- Tree clearing work was completed in March 2025 ahead of federal deadlines related to bat pupping season
- Stage 1 construction was completed in April 2025 including crossovers to accommodate head-to-head traffic during future phases of construction and temporary bypass on east side of CH 9 at Valley View Drive to accommodate roundabout construction under traffic
- A business public meeting was held in April to discuss project impacts with local business community. Groundbreaking is planned for May 28th.

Upcoming Work

- Stage 2 construction began in May 2025 with traffic head-to-head on the southbound side of US 169. This phase includes construction of half the pedestrian underpass as well as widening the northbound side of the US 169 Sand Creek Bridge.
- Stage 2 of the CH 9/Valley View Drive roundabout is underway to construct the east (northbound) half of the roundabout.
- Stage 2 work may be impacted by delayed lead time for steel beams needed for widening of the Sand Creek bridge.

Traffic Impact

- US 169 traffic will continue head-to-head throughout Stage 2 which is expected to last for several months.
- CH 9 traffic is being maintained one lane in each direction using the temporary pavement constructed in Stage 1. Valley View Drive east of CH 9 is closed during this stage which is expected to continue until late June 2025.

The importance of a Plan to set Priorities

Scott County IRC Participants

- City of Belle Plaine
- City of Jordan
- City of Shakopee
- Blakeley Township
- Belle Plaine Township
- Jackson Township
- Louisville Township
- St. Lawrence Township

Delivering What Matters Transportation Services

About this measure:

This measure compares the number of jobs within two miles of the Highway 169 corridor to the rest of the county. Job growth has and is forecasted to continue concentrating along the Highway 169 corridor. From 2012 to 2022, 60 percent of new jobs countywide were located within two miles of the Highway 169 corridor.

Source: 1990 Census, 2002-2022 Longitudinal Employer Household Dynamics Data, US Census, 2030-50 Metropolitan Council Employment Forecasts (2025)

Why does this matter?

Tracking job growth along the TH 169 corridor helps to illustrate the economic impact of that corridor. Adding mobility improvements supports travel time reliability which in turn leads to private sector investments and land use intensification.

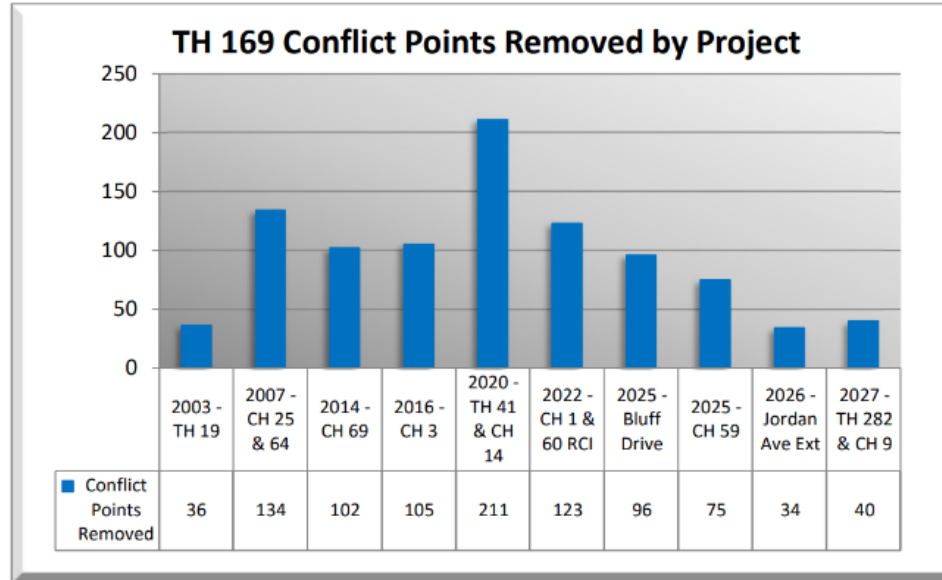

Delivering What Matters Transportation Services

About this measure:

Over the past 20 years, the County has worked with MnDOT on highway improvement projects to enhance roadway safety by reducing access and conflict points, significantly improving mobility and road safety.

Source: 2002 State Hwy 169 Corridor Management Plan, 2-24 Aerial Mapping (Nearmap)

Why does this matter?

A critical component of the County's mission is to improve safety on the county highway system and it is important to track improvements made along critical corridors. Effective access management will reduce congestion and crashes, preserve roadway capacity, improve travel times, ease movement between destinations, and support local economic development. Each access removed on TH 169 eliminates conflict points on a high speed high volume corridor resulting in increased safety.

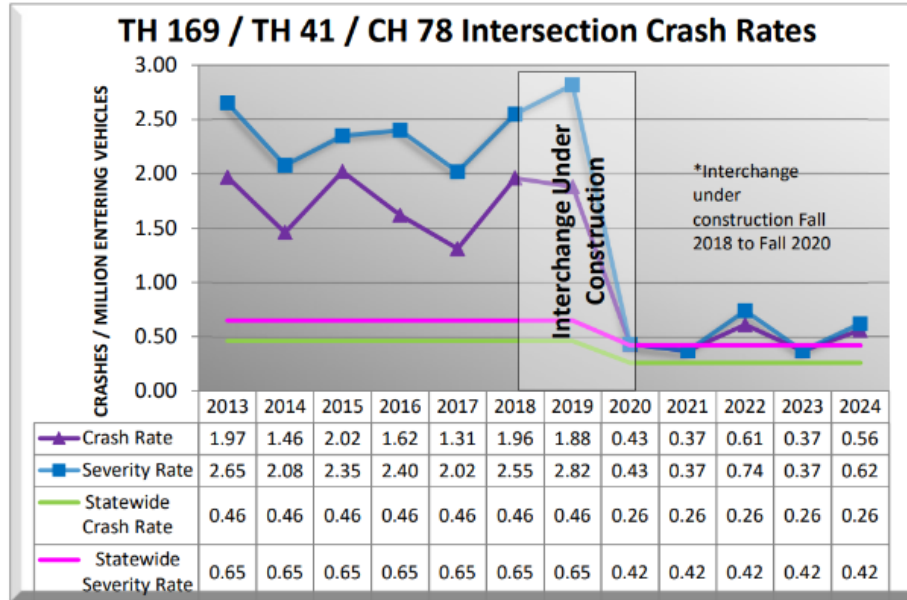

Delivering What Matters Transportation Services

About this measure:

Crash rates are calculated based on the vehicle miles traveled, roadway segment length, and total number of crashes. The crash rate is a more useful statistic than total crashes because it accounts for traffic volumes on that roadway segment. The severity rate is the crash rate weighted by the severity of the crashes. A severity rate equal to the crash rate indicates that all crashes resulted in property damage only.

Source: MnDOT Crash Database

Why does this matter?

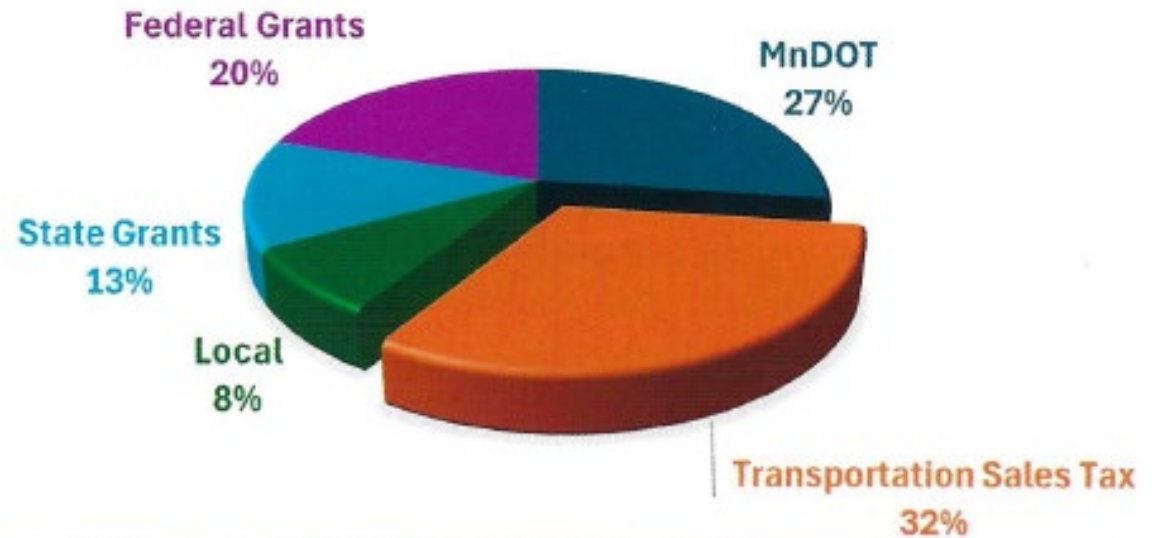

Crash rates by intersection provide information on safety conditions over time. This measure assists in identifying the safety conditions of an intersection and assists with comparisons between segments for project prioritization. The conditions can change due to a number of factors including roadway safety improvements (i.e. turn lanes), access closures or openings, and increased traffic. The County can track progress and emerging issues on the highway system related to the goal of safety.

Transportation Sales Tax Key Tool in Advancing Projects

Investment since 2003

- \$250 Million
- \$80 Million Sales Tax
- \$66 Million MnDOT
- \$32 Million State Grants
- \$50 Million Federal Grants
- \$21 Million Local Funds *

FUNDING LEVERAGED BY TRANSPORTATION SALES TAX ON HWY 169 CORRIDOR

For every sales tax dollar invested, the County leveraged two dollars of state and federal investment on Hwy 169 projects.
